**Electronic submissions are preferred.** Preferred formats for articles, stories or advertisements are Microsoft Word or RTF (rich text format). An MS-Word template is available at [www.illinoischess.org/icb.htm](http://www.illinoischess.org/icb.htm).

**Game submissions are also preferred in electronic format.** Games should be submitted in ChessBase archive format (.cbv) or in pgn. ChessBase 8 will automatically send archive format if you e-mail from ChessBase 8. In earlier versions of ChessBase you may archive a database to create a single file to e-mail. See your help materials.

Most chess databases will also produce text files in pgn format as will many chess playing programs. If you need a simple program to create pgn files, we recommend the freeware **PGN Viewer** by KenChess, available at [www.illinoischess.org/icb.htm](http://www.illinoischess.org/icb.htm). The main font for the ICB is Arial, and also using the Figurine Aries font and the US Diagram font from ChessBase.

## President's Podium

### Getting to the Next Step

We continue to work to bring the Illinois Chess Bulletin on a more timely basis. After several months of searching, Colley Kitson has agreed to serve as the ICB Technical Editor with his wife Rachel. This issue is the first that Colley has worked on, and it has been a successful learning experience. We expect the September/October issue to tighten up production time. From that point forward the ICB should be moving back onto a regular schedule.

To this end, your contributions in articles, games, stories, photographs, etc. have been extraordinarily helpful. Contributors like Mike Lobraico, Ron Suarez, Bill Smythe and many, many others are key to this being a good and successful magazine.

Currently, we are still looking for a story on the Chicago Open – a major event that has not yet had its story told. We are looking forward to receiving a contribution on this event.

We hope, I hope, that you – the readers – will continue to support the Illinois Chess Bulletin. The ICA is growing – and these first steps are painful. Some of the good signs is that the ICA and the ICB are becoming stronger on a statewide basis, not just on a Chicago metro basis. We expect to very soon announce some changes and enhancements in ICA tour events that will encourage non-metro participation, for example. In the long term having a strong state-wide organization will only make the ICA stronger.

In the short-term we still have many problems. We need to develop metro area chess clubs, we need to start running more FIDE events, and to provide more opportunity for our developing players. This “niceties” have not been our focus while getting our core competency – the Illinois Chess Bulletin – back on track.

September is our target to “kick it up a notch” (thank you Emeril) and we start with the Illinois Open Labor Day weekend. See the advertisements elsewhere in this issue. This could be the most successful Illinois Open yet.

The fall promises to be a good time for both scholastic and open events, and we encourage everyone to check out the ICA calendar – the best place to find out where to play in Illinois.

PLAY PLAY PLAY!!

We will see you at the Illinois Open!!

## Commentary and Letters

### Dan Thomasson Writes:

I would like to share with the Illinois Chess Association a Knight's Tour I created by using a very simple rule that requires no memorization:

Start at any corner and continuously rotate in the same direction around the board moving on the outermost squares.

Here are the basic moves on the chessboard from top row to bottom row.

01 - 24 - 55 - 36 - 11 - 22 - 53 - 34  
 56 - 37 - 12 - 23 - 54 - 35 - 10 - 21  
 13 - 02 - 25 - 64 - 41 - 60 - 33 - 52  
 26 - 57 - 38 - 61 - 44 - 63 - 20 - 09  
 03 - 14 - 45 - 42 - 59 - 40 - 51 - 32  
 46 - 27 - 58 - 39 - 62 - 43 - 08 - 19  
 15 - 04 - 29 - 48 - 17 - 06 - 31 - 50  
 28 - 47 - 16 - 05 - 30 - 49 - 18 - 07

The moves create a symmetrical type pattern around the board. The tour is completed with only four trips around the board. Feel free to post this solution on your web pages, in other publications, or with other Knight's Tour enthusiasts

My Knight's Tour does not reflect A Magic Square but does provide an extremely simple solution.

Enjoy.

## Who is Zhe Quan?

By Steven Klink

My first knowledge of Zhe came via email in October 2000 from an adult who was soundly beaten by Zhe at the Tim Just's Lake County Open. The message was a warning that said something to the effect that there is a new fifth grader playing chess in Illinois and my fifth grade son is in for a real challenge. The sender was not sure if his name was Zhe Quan or Quan Zhe. Of course, I forwarded the email warning to another parent of a top fifth grade player in Illinois. I was later shown notation of the game from the Tim Just's Lake County Open, but not being a seasoned chess player myself, it meant little to me. The next encounter with Zhe came in November 2000 at the Illinois All-Grade Tournament. By that time, Zhe was well known. It was quite a sight to watch the fifth graders' reaction to Zhe. Everyone was whispering, pointing, and in hushed voices saying, "There he is, that's Zhe". The scholastic players also watched as he was awarded the first place trophy!

So who is Zhe Quan? Zhe is an eleven-year-old boy who attends fifth grade at Hawthorne School in Vernon Hills. He plays basketball, soccer, ping-pong, and Frisbee. In addition, his father says Zhe is a very good student. There isn't a chess club at his school, but if there were, he would surely be the teacher with his 2008 rating. That places him third on the June USCF list of 11 and 12-year-olds. Not bad for someone who has only lived in Illinois for a year and a half. Not to mention the fact that he took a whole year off chess while he learned English.

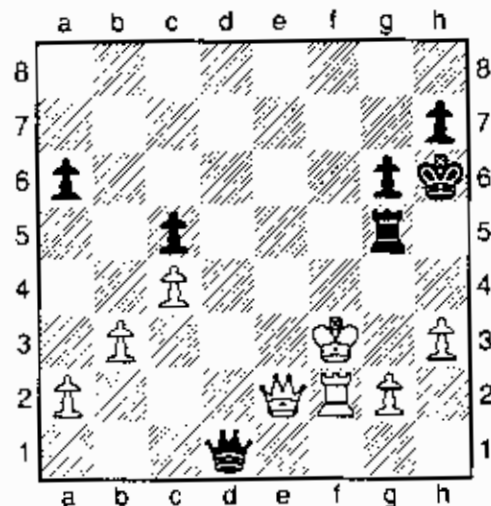

Zhe has been playing chess since 1995. His first tournament was the Zhong Shan Scholastic Championship in China, 1996. His tutor for two years in China was WGM Liu Shi Lan. He placed second twice in the National Scholastic Tournament in China, for the 8 and under section. In Illinois, IM Angelo Young has been tutoring Zhe for about 4 months.

Zhe says adults are his preferred opponents because they have more experience and provide a better challenge. (He recently tied for first in the under 2000 section at the Chicago Open). This preference should not be taken lightly; Zhe won the K-5 section at the SuperNationals in Kansas City with a perfect score of 7-0, and said that his opponents were not too challenging! His future goals should not surprise anyone: GM and World Champion. And please, feel free to email that warning to the appropriate people.

## Eastern Invasion

**By Colley Kitson**

Hello ICB readers! My name is Colley Kitson, and it is my privilege to be the new technical editor for the ICB. I hope you will bear with me as I learn the role and try to perfect this process.

I currently run State Farm Employee Chess Club, which has about twenty USCF members. Our club has recently been overrun with a peaceful invasion of Indian chess players. They have provided some great sparring for our club in particular.

The Bloomington Normal area is fortunate to have two well-established clubs. The Twin Cities Chess Club is over thirty years old and has some great players and organizers. The key to the Twin Cities' success is being gifted to have two great organizers, Garrett Scott and Dennis Bourgerie, at the helm.

With the arrival of our Indian friends we now have three clubs with a combined membership of close to one hundred chess players, and a good chess town has become a great chess town.

I would like to take a little time to introduce you to a few of our new stars. Surya Kopula is the co-winner of the U1600 section of the Chicago Open. Surya is a good friend of mine, and I have had the pleasure of playing with him dozens of times over the last couple of years. Surya arrived here in the states in 1999 and has had some great success in the Class C and D sections of mid-size tournaments held in central IL. The tie for first place C Section at the Chicago Open ranks among his best victories.

Surya works for HTC Global Services Inc., a company that helps State Farm Insurance with software solutions. Surya and his gang of polite playing chess demons have altered the shape of chess in central IL. It been very humbling to watch them rapidly add victories and rating points to their accolades. It is my honor to interview him and discover the source of his skill.

CK: Good afternoon, Surya. Congratulation on your victory in the U1600 section of the Chicago Open.  
SP: Good afternoon, Colley. Thank you!

CK: Thanks for taking some time to share with the readers of the ICB about yourself. I am wondering, as are many of your opponents, how have you been so successful in such a short period of time? Where did you learn to play and how has that influenced you?

SK: I learned to play chess when I was 14 in Tirupur City, India. I started playing with family and friends. While in school I became very active in swiss style tournaments. That experience helped to lay a good foundation to play well here.

CK: Did you have tournament success in India before coming to the United States?

SK: Yes. I played in many tournaments during my school days and was the winner of an intercollegiate tournament in 1992. I also remember, when I was in 10<sup>th</sup> grade I got a chance to defeat a FIDE Master V. Saravanan in an Open Chess tournament. He has since that time become an IM.

CK: So was the win in the Chicago Open the best chess memory yet?

SK: Of Course! It is one of the major and unforgettable victories in U.S.

CK: And let's not forget the money, of course!  
SK: (Laughs) I won \$2500 which is equal to Rs100,000, and a great part of it is already spent by my lovely wife! Just Kidding!

(Surya has been married one year to an India beauty named Jeya. She is present at the interview and gives him a sharp elbow for the comment)

CK: So what made this victory possible?

SK: I am sure this victory was possible because of the strong chess environment of Twin City area. Before the Chicago Open, I played in several local tournaments. The skill level at these clubs: HTC Chess Clubs, State Farm Chess Club and Twin City Chess Club during the last 6 months has been a terrific experience. One of which, as you know, was the USA vs. India tournament. In The May Normal Open I had an opportunity to play with 2100 rated player whom I managed to draw. Of course, my wife's support has helped me to keep playing consistently and peacefully. (He says that loud enough for Jeya to hear)

CK: OK, Surya, Thanks for your time and the great games!

SK: Congrats to you, Colley-- you are always a winner in blitz games with me!  
(You gotta like that guy...)

## RULEBOOK TACTICS

By Tim Just

### Prizes Funds: Understand By Example

#### GUARANTEED PRIZES:

A tournament advertises a **\$2000 Guaranteed** prize fund with 1st = \$500, 2nd = \$300, 3rd = \$200, A, B, C, D, E = \$125-\$75 each. The **organizer must pay out all \$2000** of the prize money, no matter what! If, for example, among other players only two Class D players enter the event, those two players are awarded the first and second place prize money of \$125-\$75 based on their scores.

#### BASED ON PRIZES:

1. A tournament advertises a **\$2000 prize fund** with 1st = \$500, 2nd = \$300, 3rd = \$200, A, B, C, D, E = \$125-\$75 each, **based on 100 entries** (b/100). Because the prize fund is over \$500 the **organizer must pay out prizes** based on the proportion (%) of the actual player attendance, below the expected entries, **awarding at least 50%** of the advertised prizes, no matter what! If, for example, **only 30 players** enter (30/100 = 30%), the **new prize fund** according to the rules is **reduced to a minimum of 50%**, not the actual 30%, of its original value (old prize x 50% = new prize): the new prize fund total is \$1000 with 1st = \$250, 2nd = \$150, 3rd = \$100, A, B, C, D, E = \$62.50-\$37.50 each. Further, if among other players only two Class D players enter the event those two players are awarded the first and second place prize money of \$62.50-\$37.50 based on their scores.

2. A tournament advertises a **\$2000 prize fund** with 1st = \$500, 2nd = \$300, 3rd = \$200, A, B, C, D, E = \$125-\$75 each, **based on 100 entries** (b/100). Because the prize fund is over \$500 the **organizer must pay out prizes** based on the proportion (%) of the actual player attendance, below the expected entries, **awarding at least 50%** of the advertised prizes, no matter what! If, for example, **only 70 players** enter (70/100 = 70%), the **new prize fund** according to the rules is **reduced to 70%** of its original value (old prize x 70% = new prize): the new prize fund total is \$1400 with 1st = \$350, 2nd = \$210, 3rd = \$140, A, B, C, D, E = \$87.50-\$52.50 each. Further, if among other players only two Class D players enter the event those two players are awarded the first and second place prize money of \$87.50-\$52.50 based on their scores.

3. A tournament advertises a **\$500 prize fund** with 1st = \$125, 2nd = \$75, 3rd = \$50, A, B, C, D, E = 50 each, based on 50 entries. **Prize funds of \$500 or less** only require the **organizer need only to pay out prizes based solely on the proportion of actual player attendance** below the expected entries (there is no 50% minimum payout) no matter what! If, for example, **only 20 players** entered (20/50 = 40%), the **new prize fund** according to the rules is

**reduced to 40%** of its original value (old prize x 40% = new prize): The new prize fund total is \$200 with 1st = \$50, 2nd = \$30, 3rd = \$20, A, B, C, D, E = \$20. Further, if among other players only one Class D player enters the event that player is awarded the first place prize money of \$20 no matter what that player's score is.

#### PARTIAL GUARANTEES:

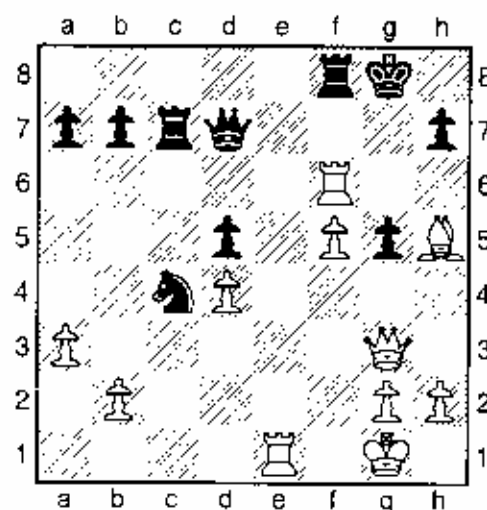

A tournament advertises **projected prizes of \$2,000** with 1st = \$500 (guaranteed), 2nd = \$300, 3rd = \$200, A, B, C, D, E = \$125-\$75 each, **based on 80 entries** (b/80). **The \$500 first prize must be awarded**, no matter what! **The remaining \$1,500 in the prize fund is based on 80 entries**; therefore, all of the rules for based on prizes now apply to this \$1500. If, for example, **only 60 players** enter (60/80 = 75%) the **new prize fund** according to the rules is the total of the **guaranteed prize plus the remaining prize fund reduced to 75%** of its original value (total prizes = guaranteed prizes + 75% x old prize; individual prizes = 75% x old prizes). The new prize fund total of \$1625 (\$500 + \$1125) with 1st = \$500 (guaranteed), 2nd = \$225, 3rd = \$150, A, B, C, D, E = \$93.75-\$56.25 each. Any class with at least one player must award those prizes as outlined above.

## Master Challenge Man In the Street *Michael Lobraco*

The Master Challenge was held June 22-24 and hosted by the Elmhurst Chess Club. We will be covering the Master Challenge in the next issue so please send us some games.

The Illinois chess players were asked two questions.

1. What is your favorite reason for playing chess at Master Challenge?
2. If you were not playing chess what else would you be doing today?

William Aramil

1. It has the most competition.
2. Playing basketball with friends.

Bob Parsons

1. I like the site at ECC.
2. Probably having a cook out and drinking some beer.

Peter Daw

1. I am new to Illinois chess and wanted to play in a challenging tournament.
2. I would be working.

Bennett Joseph

1. Get to play a GM if I play well.
2. Umpiring baseball games.

Vince Hart

1. Getting a free lesson from Aleksandar Stannov.
2. Lying in the backyard on a hammock.

David Nordahl

1. A lot of strong chess players. Time control is good.
2. I would be mowing the lawn at moms.

Matthew Hass

1. I have never been here before, good competition.
2. Playing chess somewhere else

Hector Hernandez

1. Strong competition
2. Working

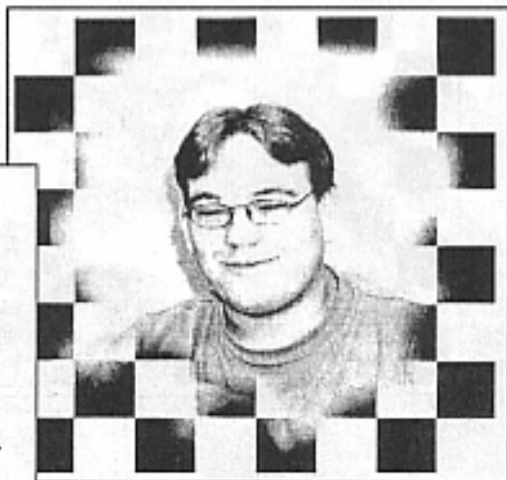

Jeffrey Neumann

1. Meeting the good players
2. Playing classical music.

Blair Machaj

1. Making Money!
2. Might be directing another chess tournament.

This is a interesting piece of Chess Lore summated by Evie Moschel & Ken Wallach. A game between Robert Fisher & C Garcia played 3/23/1964 at the Chicago Park district division of Recreation. The score sheet is rough and I am not form the Chicago Area so forgive me if this is not right

## Chess From the Middle

### **Correct Tournament Preparation**

In this installment of our series we are going to discuss how and what you should do to prepare for a tournament. With this information your rating will automatically raise by a minimum 273 points. You will find that this is all you need to properly prepare for any type of tournament or match. Don't worry about how the Russians or anyone else prepares. This is the "Way of the Middle"!

The real preparation should start four days before the event. On the first day you should focus on your openings. Don't try anything too conventional. Think Polish, Latvian, Spike, Creepy Crawly. Forget things like Sicilian, French, Dragon or Scandinavian. The idea is to catch your opponent off guard. Remember, he will be staying up all night studying your previous games because he read that is what Dmitri and Garry do (the last ICB). You don't want to be predictable.

On the second day it is time to study endgames. Since you will be playing the likes of the Polish and the Spike, you need to study King and Queen versus King and Pawn endgames where you have the King and Pawn.

On the third day you need to go over tactics. Study things like how to shine a light in your opponent's eyes at just the right time. Don't worry about the chess move tactics. If you don't know it now it's too late. Plus, you don't want to clog your mind with that confusing chess stuff.

On the day before the tournament it is time to physically prepare. First you need to do your weight lifting. Then you need to do your finger exercises. Moving chess pieces takes precision and accuracy.

It is also time to collect the things you will bring to the tournament with you. Here is a nice list for you to follow, exactly:

1. Chess Set
2. Chess Board
3. Chess Clock
4. Chess Shoes
5. Chess Pen

The food you eat is also very important on this day before your important event. Some might say to eat certain foods to enhance your brain activity. Hogwash! Eat whatever you want. Just make sure you eat.

Don't worry about studying chess on this day or night before the tournament. You do need to take a ninety-minute bath on this day though. This bath will clean off the dirt and grime that has built up over the six weeks since your last one. It will also allow you to meditate in a warm and moist way on your chess game and your navel. Is it an "innie" or an "outie"?

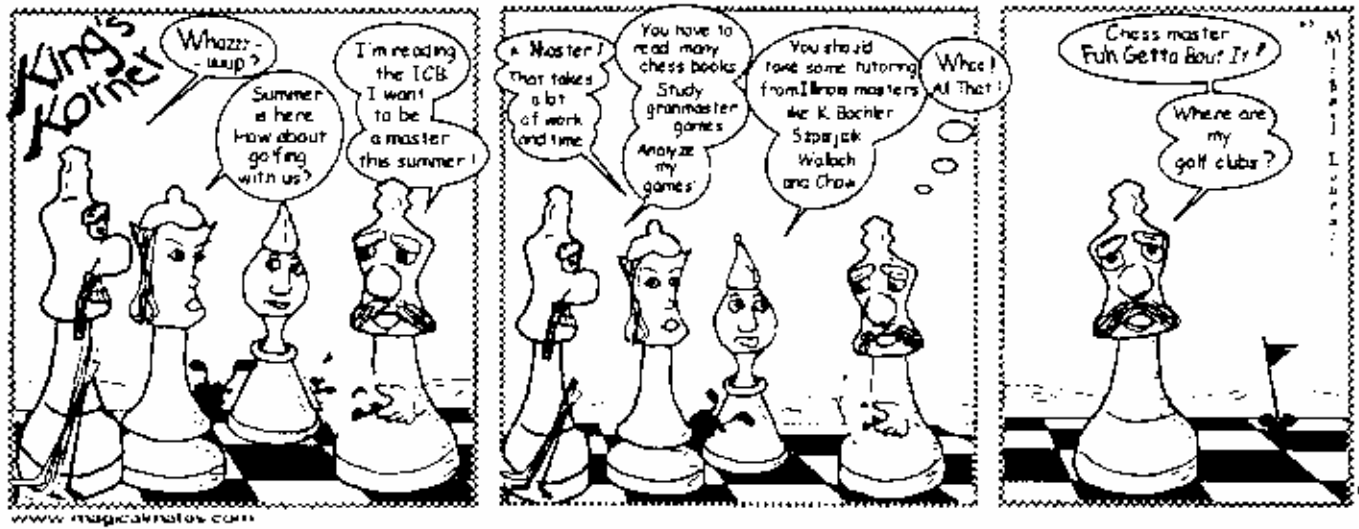

Get to bed and sleep the night before the tournament. Sure some guys might talk about staying up and studying your opponent's games, but that is what your opponents are doing on you. Remember your day of studying the openings? They are going to be studying the wrong things, hee hee. You are going to shock and astound your opponent with your opening treatise. You don't need to study. Sleep!

On the morning of the tournament you must wake up very early and get up and run seven miles. This will only work if you have never run before. Just think if you are still alive after this run, the chess tournament will be a cakewalk.

Don't eat or drink anything for twelve hours before your first game. Then start eating during your first game. You will be so hungry that you won't have time to be nervous. You'll be eating instead. Also when you do get to that endgame where you have the King and Pawn against the King and Queen of your opponent, you will be ready while he is exhausted. He will also be overly confident because he still has his Queen. Won't he feel bad when you show him up???

Remember that you are doing this for fun. Also remember to really follow this regimen if you will be playing in a tournament that I am playing in too. Don't be shocked or appalled if you lose your first few (hundred) games. This system may take a bit of time to take hold and work for you.

Thanks and have fun. Keep up the press to play chess. Smile and be friendly with those around.

## Wicker Park Chess Club

The regular Wednesday night sessions at the club have been as lively as ever. Despite the pleasant weather, the usual suspects still venture to the dank, dark underworld of Myopic Books for their weekly session at the board. We are pleased that so many newcomers have decided to join us. The most recent Wicker Quicker was also the most successful. Since the WPCC began hosting the open quick event, the field of players has grown rapidly in both number and average strength. The June 16th tournament drew two active International Masters. One of them, Osman Palos, finished with a perfect score of 5.

The Elmhurst Chess Club was represented by a strong contingent. Our members had been inspired by Blair Machaj's recent article *Beating a GM* so it was good to meet him. Of the Elmhurst group Dushyanth Reddivari finished with the highest score of four, tying with Aleksandar Stannov for second place. Thanks to those members of the ECC who participated. The deciding game of the day was the fourth round encounter between Palos and Stannov:

The quicker will take a hiatus until September 15th. Dates for events through December can be found in the ICA calendar at the rear of this issue. Thanks to Bill Smythe for his support, advice and encouragement. Heartfelt congratulations to Hoda and Kemba Mazloomian on becoming new parents. The WPCC also wishes a fond farewell to its reigning champion Brian Garwood.

Patzers of Cleveland beware!

The Wicker Park Chess Club is committed to promoting chess culture on Chicago's near northwest side. The WPCC meets each Wednesday at 7:00pm in Myopic books, 1468 N. Milwaukee Ave. The club provides area chess players with a venue for 20 informal and tournament play, study and enjoyment of the greatest game. Beginners are strongly encouraged to join us. Those interested in more information about the club can contact Pat Jones at 773/772-1369, mail us at WPCC, P.O. ## News From Peoria

Wanye Zimmerman

Jim Barthel is the 2001 Peoria City Champion. His only loss was to last year's City Champion Mike Leali. However, Jim scored 4 points to Mike's 3½, and Pete Karagianis's 3 ½ points, to win in the City Championship's playoff. The Peoria City Champion is decided with a six man round robin event. The first qualifier is the previous year's champion. The second qualifier is last year's Greater Peoria Open winner or the highest placing local player. The third qualifier is the Board 1 League winner. The winner of the annual December tournament qualifies. The winner of the Class Championships also qualifies. The sixth player is an At Large Invitee.

Peter McConaghie is Peoria's new Speed Champion. He has dethroned Pete Karagianis in the Beat Pete Tournament. The GPCF Speed Champion is determined over the course of 4 Monday nights. On the first Monday night 3

game 20 games are played. On the second night the speed increases to Game 15 and 4 games are played. The third night goes to 5 rounds of Game 10. All of these games are also USCF Quick Rated and rated on the GPCF Ladder. The final night's games are not USCF ratable but figure extremely strongly in deciding the current champion and possessor of the Traveling Speed Trophy. The time control for these 6 games is Game 5.

Pete Karagianis is the current Peoria Ladder Leader despite being away in Europe and unable to defend his top-ranked position for the last three weeks. Ladder ratings start fresh at the beginning of each calendar year. Players enter the Ladder with a rating of 1600. Ladder games are weighted so that games with time controls up to Game 20 are rated normally. Between Game 20 and up to 40 are double weighted. Between Game 40 and 60 are triple weighted. All time controls over game 60 are 4 times the regular weight. There is no double or nothing play.

The tournament was directed by Thomas Knoedler and David Long and was attended by 43 players. 2 players played under the "houseman" variation: Stacy Warren who played 2 rounds and Tomas Knoedler, who played 1 round.

Springfield tournaments will resume in October 2001, however they will be at a new location, as they are leaving the Hampton Inn site.

Check your tournament calendar for the new location.

## Tournament & Events Calendar

All tournaments are USCF-rated, unless otherwise noted (Quick-rated if game/29 or faster) and require USCF membership. ICA Tour events also require ICA membership. Memberships may be purchased at most tournaments. Scholastic events are marked with a (S). Most tournaments prohibit smoking in the playing rooms.

ICA Tour events are generally listed as such in Chess Life and in the Calendar below. Players are responsible for checking both Chess Life and the Illinois Chess Bulletin to determine which events are Tour events. Call ChessPhone (630-832-5222) a few days before any tournament to verify its Tour status, or check the web at [www.illinoischess.org](http://www.illinoischess.org).

Organizers: Please clear your events through the ICA Tournament Calendar. **Calendar coordinator is Bill Smythe**, 7042 N Greenview Av #1-S, Chicago 60626-2833, 773-761-2455, [chchess@enteract.com](mailto:chchess@enteract.com). **Do not send calendar entries to the ICB editor.** If you are running a Tour event, make sure it is listed as such in both Chess Life and the ICB. Deadlines for ICB calendar submissions are as follows:

## NEWS FROM THE TWIN CITY CHESS CLUB OF BLOOMINGTON- NORMAL, IL

by Dennis Bourgerie

### And Remarks By Colley Kitson

Dale Elder won the May 2001 Quick Tournament (game/10, 5 rounds) with a score of 4.0 - 1.0.

Dennis Bourgerie won the June Quick with 5.0 - 0.0.

Dale and I are both over 50 (*Way Over like A whole decade CK*) years of age, so it's a hopeful sign to know that not all of the honors go to the under age 30 crowd. Go Geezers!

Dale Elder at work

*"I got this nice piece of property for sale, if you lose this game I'll give you a discount." CK*

Adam Chambers won the March-April ladder tournament (Game/45) with 3.5 points.

Here is some news about other club members and local area players. Scott Schmidt of Bloomington, IL scored 5 wins and 2 draws to finish in 4<sup>th</sup> place in the K-5 division at the 2001 Kansas City Supernationals. Felix Tsao, of Normal, IL played in the same tournament in the K-3 division, scoring 5.5 out of 7.

Suryaprakash Kopula, Shankar Ramamoorthy, Suresh Kanniah, Scott Schmidt and Andy Cain, all of the Twin Cities, played in the Chicago Open. Suryaprakash scored 6 wins and 1 loss to tie for 1<sup>st</sup> in the Under 1600 section.

This is the 3<sup>rd</sup> year in a row that local area players have done well at the Chicago Open. In 2000 Adam Chambers had 6 wins and 1 loss to tie for 2<sup>nd</sup> in the Under 1400 division.

In 1999, Jameson Painter of Goodfield, IL scored 6-1 to tie for 1<sup>st</sup> in the Under 1600 division.

All in all, local area chessplayers have represented themselves well at the Chicago Open in recent years.

### July 21 Normal Open

Just In,

Pete Stein (2146) won the above tournament with a 4-0 score.

Mike Leali (1893) and Larry Cohen (1935), tied for 2nd with 3.5 - 0.5. In the last round, with 12 seconds remaining on his clock, Larry found a checkmating attack against Daniel Leung ((1798). Why is Larry in such a hurry? We do have a 5 second time delay!

Best wishes, Dennis Bourgerie

## Ramamoorthy wins Normal May Open

### Merli, Kopula tie for 2<sup>nd</sup>

by Dennis Bourgerie

34 chess players entered the 2001 Normal May Open on May 19<sup>th</sup>, directed by Dennis Bourgerie and Colley Kitson. This tournament was a 4 round Swiss with accelerated pairings, played at a time control of game/80.

Shankar Ramamoorthy (1592) of Bloomington, IL defeated Steve Martin (1255), Pete Karagianis (1718), Marcos Gonzalez (892) and Suresh Kanniah (1523) to finish 4-0. Shankar displayed his usual resourceful and optimistic play to go to the top. Last Year he won the Normal July Open, also with a 4-0 score.

Chris Merli (2119) and Suryaprakash Kopula (1556) drew their 3<sup>rd</sup> round game. They won the rest of their games to tie for 2<sup>nd</sup> with 3.5-0.5.

Chris has played in a number of Bloomington-Normal tournaments, usually finishing 1<sup>st</sup> or 2<sup>nd</sup>. To the best of my memory, Chris has lost only 1 game in B-N, that being against International Master Dominik Pedzich last year.

The top 19 finishers were as follows:

Shankar Ramamoorthy (1592)	4.0	
Chris Merli (2119)	3.5	
Suryaprakash Kopula (1556)	3.5	
Suresh Kanniah (1523)	3.0	
Pete Karagianis (1701)	3.0	
David Long (1801)	3.0	
Tim Harrington-Taber (1662)	3.0	
Adam Chambers (1656)	3.0	
Dan Willis (1033)	2.5	
Scott Schmidt (1380)	2.5	
Rob Nunez (1272)	2.5	
Erden Ustunsoy (1981)	2.0	
Joe Zengulys (1422)	2.0	
Marcos Gonzalez (892)	2.0	
Krishna Shankar (1222)	2.0	
Noah Tilton (961)	2.0	
Mark Nibbelin (683)	2.0	
Larry VanRyn (1317)	2.0	
Earl Kennell (1240)	2.0	

There are a couple of chess rumors circulating in Bloomington-Normal: the first is that 1 of the local chessplayers

(Shankar Ramamoorthy, Surya Kopula or Suresh Kanniah) defeated FIDE World Champion Vishy Anand in a Quick chess game; the second is that Bill Smythe defeated much-publicized chess author Eric Schiller in Las Vegas. Since these alleged prodigious feats are so out of the ordinary, we are currently awaiting

documentation from New Delhi and Las Vegas respectively. In the interim, we are enjoying these rumors to the fullest.

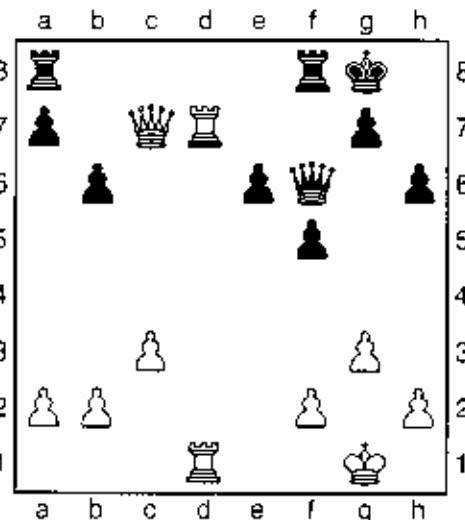

Thanks to the Fairfield Inn for providing coffee and juice and doughnuts all day long and a pleasant place to play chess. And, thanks to Colley Kitson for bringing his House of Staunton paduk and curly maple Chessboard and Legend Ambassador rosewood chess pieces. Every time I play Colley on this set, I say a small prayer before starting—"Please God, make me worthy to play chess on such a beautiful set." His chess set is gorgeous!

Enough yada-yada-yada. Here are some of the games:

**5E is a sample of the "For further information..." idea that will be used throughout the book.**

**5F has some new language and a new paragraph (paragraph 5) with a change in who is required to set clocks. It is also an example of the TD TIP idea that will be used throughout to book.**

## **5E. Standard timer for non-sudden death.**

The standard timers for games not concluded by a sudden death time control are either an allegro or digital clock with time-delay capability or a mechanical apparatus consisting of two clocks that tell time by means of hands moving on a dial (analog clocks). For further information on clocks see Chapter 4, "Equipment Standards", 16B, "How to set clocks", 35F5, "Special clock", and 42E, "Standard clocks".

## **5F. Standard timer for sudden death.**

If the Allegro Clock or a similar clock is not available, 5E applies. For more information on Allegro clocks see Chapter 4, "Equipment Standards", 16B, "How to set clocks", 35F5, "Special clock", 42B, "Signaling devices", 42C, "Move counters", 42D, "Digital clocks", and 42F, "Allegro clock".

The USCF Allegro Clock, a clock with time delay and, possibly, move-counting capabilities, is the standard timer for sudden death time controls. This clock allows games to be decided entirely by the players (14H7), with no need for directors to consider insufficient losing chances (14H) or count for the 50-move rule

(14F4). Games are drawn after 175 moves are completed (14K).

If using an Allegro Clock without a move counter, the draw after 175 moves can still be achieved as a result of the claimant's score sheet or a count by the director or another acceptable witness. For related information see 14G2, "Players apparently unaware of situation", 14J, "Draw declared by director", 16Y, "Assisting players with time management prohibited", 18G, "Adjudications", and 21D, "Intervening in games".

The Allegro Clock may be set to allow each player a small amount of reaction time, called a delay, for each move before starting to consume reflection time. The standard delay is five seconds per move. For Quick Chess (G/10 to G/29) the standard delay is three seconds, and for Blitz Chess (G/5) two seconds. The Allegro Clock may also be used for non-sudden death play by setting the delay to zero.

Players, not tournament directors, are responsible for knowing how to properly set (16B) their Allegro Clock. If their Allegro Clock cannot be properly set then their opponent may choose which legal clock is to be used.

- a. The tournament director has the right to shorten the basic time control, in minutes, by the time delay used, in seconds. Examples: Clocks for G/60 with a 5-second time delay (t/d5) may be set at 55 minutes instead of 60; G/30 with a 5-second time delay (t/d5) may be set at 25 minutes and still be rated as G/30; G/10 with a 3-second time delay (t/d3) may be set at 7 minutes.

There is no requirement to advertise this option in advance. It may also be used for games starting later than the official starting time of any particular round even when not used otherwise.

- b. A game with a mixed time control, e.g. 50 moves in two hours following by sudden death in 30 minutes (50/2, SD/30), is to use a time-delay clock set with 5-second delay from the beginning of the game, if available. However, if the games starts with an analog clock it should remain, except in the procedure described in rule 14H4c.

*TD TIP: This rule means exactly what it states, that in a mixed time control game, as well as in a single Sudden Death time control, the time delay clock, if available, should be set with the time delay in force from move one.*
